## BAY SCHOOL BOND VOTE IS LISTED

An official canvass of ballots completed last week gave passage of the Bay St. Louis municipal separate school system expansion program bond issue by five votes.

City Commissioner J. Cyril Glover said official results showed 833 votes for and 828 votes against the \$1,183,000 bond issue meeting the required 60 percent by five votes.

Commissioner Glover said eight of the 1,387 votes cast in the election Tuesday were spoiled, leaving 1,379 legal ballots. Sixty percent of the legal ballots, or 828, were required by law for passage of the bond issue.

Glover said the election commission must now certify the results of the balloting before steps may be taken for sale of the bonds. The seven and a half mills tax increase will not go into effect until one year after the bonds are sold, Glover said.

**SCHOOL PLANS**  
He noted the architects will now go ahead with detailed plans and specifications for the new \$1,046,199 high school and other improvements. The new school is scheduled for completion in time for the 1968 school term.

The completion of the new school is expected to coincide with completion of the sewer system now under construction in the city, Glover said.

The high school plant will be erected on a 20-acre site already owned by the city and located on Blue Meadow Road just off U. S. Highway 90.

Other work in the expansion program calls for additions to the Valena C. Jones School and the Waveland Elementary School and for construction of storage and dressing room facilities at the new football stadium.

A breakdown of the election results by precincts follows:

Arlington, 24 for, 23 against; Edwardsville, 49 for, 18 against; Courthouse, 88 for, 24 against; Waveland, 94 for, 227 against; North Bay St. Louis, 394 for, 153 against; and South Bay St. Louis, 188 for, 101 against.

## TENTATIVE CONTRACT ON REVISING CITY ORDINANCES

After preliminary conferences Tuesday with representatives of the Municipal Code Corp., of Tallahassee, Fla., the Bay St. Louis city council has agreed to a tentative contract for a revision and modernization of the city's municipal ordinances.

A finalized contract will be submitted to the council next week, Mayor John A. Scaife said, for approval and signing.

The firm will study the city's ordinances and submit revisions for approval to the council. This study will take about six months for completion, Mayor Scaife said.

All city ordinances will be gone over carefully by the firm's specialists and they will make recommendations for the elimination of obsolete codes and the modernization of others.

The revisions will be submitted to the council for approval or amendments as the work progresses but Mayor Scaife said, final adoption will not take place until the work is complete.

The council has also adopted a resolution objecting to proposed twin bridges over the Jordan River with a navigable opening of 20 feet vertical and 50 feet horizontal.

The resolution, which recommends openings of 40 feet vertical and 100 feet horizontal, will be submitted to the U. S. Army Corps of Engineers.

The bridges, to be located 4.5 miles above the river's mouth northwest of the city are for the construction of Interstate Highway 10.

## Police Reports

Jeanne Lagasse, daughter of Mr. and Mrs. James Lagasse of Waveland, is confined to Hancock General Hospital for observation of injuries received in an automobile accident Friday evening.

Miss Lagasse was in a car driven by her sister Gaynell, when the accident occurred. Other passengers in the vehicle were Kenni Callahan and Janet Simmo of New Orleans.

Miss Lagasse said they were traveling on Waveland Avenue when her car struck a hole in the road on Waveland Avenue which caused it to skid and overturn.

The others received bruises and lacerations and were brought to the hospital and later released.

The car, a 1958 Studebaker, was a total loss.

## SEN. STENNIS GIVES VIEWS ON BRIDGES

Senator John Stennis renewed his request to the U. S. Corps of Engineers that the proposed construction of certain bridges over waterways to be traversed by Interstate Highway 10 along the Mississippi Gulf Coast be reconstructed with a view toward the future development and use of these waterways.

Plans have been announced for the construction of fixed twin bridges across the Jordan River and water carriers. Industrial and civic leaders in the area have questioned whether these plans provide sufficient clearance to handle the large commercial and pleasure craft that now navigate Jordan River.

In the future additional bridges must be planned and constructed at several points on Interstate 10 on the Gulf Coast. Senator Stennis has previously discussed these plans with the Corps of Engineers and has urged that close consideration be given to the present and future uses of these waterways.

Because of the objections to present plans raised by Senator Stennis and others, a public hearing was held at 159 Main St., Bay St. Louis, the real estate office of the Corps at which time, the Mobile District Corps of Engineers met with local interested parties in an effort to reach agreement.

Senator Stennis has repeatedly urged that no action be taken which will be a hindrance to navigation on these important streams and waterways.

He stated that the future growth of the coastal area is dependent upon the continued development of a fine waterway transportation system. "It would be a grave mistake," Stennis said, "to construct bridges or other obstructions which would not allow the passage of large boats and ships that will be required to handle the traffic on these waterways in the future."

Senator Stennis told the press he has assured local interests that he will continue his efforts to assure that adequate planning is given to the continued development and use of these waterways.

going out to the marshes, ducks and geese were flying and there were quite a few around. The best hunting will be from now on.

Woodcock and Wilson Snipe season opened last week, Nov. 27. For those who don't know, or haven't hunted these birds, they are not too large, being a little larger than a dove, but for eating they are excellent. Woodcock and snipe are found mostly in marshy, wet ground. The snipe will light on the banks of bayous when the tide is low. In flight, they are a hard bird to shoot, darting from side to side. When on the ground they are easy prey. The woodcock is found in marshy places and fly like a quail, rising straight up and leveling off. For hunting, they furnish plenty of action for the hunter.

On the 27th, the day after Thanksgiving, I will run a season open for a long time. I want to mention squirrels. Squirrel season is open now and through January 8th. There are many hunters to stay and they have all the traps they can take care of. On the 28th, I will run a season coming up on Dec. 1st, through January 15th. And finally, the same thing as fishing will be good from now on. Both fresh and salt water is at its best when the weather is cold. Trolling for green perch and speckles should be at its best while still-water fishing for bluegill and various other fish will be good. On the Mississippi Gulf Coast, there is a lot of turkey hunting. Mr. Joe DiBenedetto, who has killed many turkeys, and it is a pleasure to hear him tell how he stalked them and about his being lost in the woods on a few occasions. Mr. Joe is now 83 years of age. His hunting has been cut down a bit, but he goes fishing every day when possible. He is a remarkable man of the old school.

Turkey hunting is an art in itself. There are a lot of good turkey hunters in Hancock County and among the best is Joe DiBenedetto. Mr. Joe has killed many turkeys, and it is a pleasure to hear him tell how he stalked them and about his being lost in the woods on a few occasions. Mr. Joe is now 83 years of age. His hunting has been cut down a bit, but he goes fishing every day when possible. He is a remarkable man of the old school.

Here are two tips to help your bird-dog do a better job this season: hunt him into the wind, and hunt from the heavy cover toward the light cover.

A little psychology from a man 70 years old: Take care of today and let tomorrow take care of itself. It will keep you from getting gray before you are forty.

When being kidded about going fishing and what results you had, ask the kiddier what he got on his last trip and he will say: None, the wind was too strong, the tide wasn't right and the fish wouldn't cooperate.

If every fishing trip was an excellent one, it would take the pleasure out of going. If it's a bad trip, you will say we will do better next time.

**WOOL GROWERS REMINDED OF CUT-OFF DATE**  
Growers were reminded today to complete all details of marketing wool and lambs not later than December 31, 1964. In order to receive payments for the current marketing year.

Tommy R. Shaw, chairman of the Hancock Agricultural Stabilization and Conservation County Committee, points out that marketing completed after that date will be eligible for payments for the 1965 marketing year. Since the wool marketing year now is on a calendar year basis, the sale will not be considered as taking place in the 1964 marketing year if any part of a sale of lambs or wool is not settled by December 31.

This means that all the information needed to complete the sales documents and show the net sales proceeds for wool has to be determined and available by December 31 in order to be eligible for wool marketing payments for the 1964 marketing year. Under program regulations, wool is not marketed until title has passed to the buyer, the wool has been physically or through documents which transfer control to the buyer, and all the information, such as price per pound, weight, yield, etc., needed to determine the buyer's total purchase price is available.

Payments for the 1964 marketing year will begin about April of next year, after the program payments on the average prices received by producers for shorn wool sold in 1964. Payments for the 1965 marketing year on marketings taking place or completed after December 31, 1964, will be made in the spring of 1966.

**43 OF 45 HANCOCK VOTES IN FAVOR OF MEC PROPOSALS**  
Results of "balloting" on three major proposals designed to improve the state's economy as presented at the recent PEP (Programming, Economic Progress) meeting in this area are being announced today by the Mississippi Economic Council.

The organization said there were a total of 45 "votes" cast by Hancock County citizens in favor of the PEP meeting, and that of this number, 43 favored the three proposals, while 2 were opposed, also those attending agreed to present the proposals to 64 clubs and organizations within the county in an effort to have the groups take a position on them.

The proposals, briefly, call for revamping the state's property tax assessment practices and procedures, in order to make property tax assessments more equitable at the municipal, county and state levels; acceleration of the vocational education program to fill needs in the trade, technical and industrial fields; and improvements in county road administration so as to secure maximum returns from each dollar spent in building and maintaining roads.

Following presentation of facts on the three topics, sheets on which to score their beliefs about the proposals. Free literature on the three topics is available to any person desiring it by writing P. O. Box 1849, Jackson, Ala. Civic clubs desiring to have a speaker explain one or more of the topics are invited to contact the MEC speaker's bureau at the same address.

From the 31 counties attending the first 11 meetings, there were 2034 votes cast, with 1949 favoring the proposals, and 85 opposing. The vocational education program received the biggest endorsement, 705 favoring as to only 7 opposing. The fair property tax proposal was second, with 647 favoring and 27 opposing; the county road administration was third with 598 favoring, and 53 opposing.

**We Won!**

Garry and I won first prize last Saturday! It was the young people's Olde Tyme costume party at the church, and we had a wonderful time.

I go to almost everything the club puts on, and of course there are lots of activities besides parties and dances. We visit hospitals, we collect and repair toys for underprivileged children, and we help with various church events. We have regular religious discussion groups that often get me so interested I continue the discussion around the family dinner table all week long! Mom and Dad don't mind, though. They think it's good for me to be mixing with other young Christians, and they never worry when I'm over at the club.

Your own church offers many enjoyable and worthwhile activities for Christians of every age. Why not join? You'll be warmly welcomed.

**THE CHURCH FOR ALL - ALL FOR THE CHURCH**  
The Church is the greatest factor in the building of character and good citizenship. It is the home of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services reg-  
ularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church, itself, which needs his moral and material support. Plan to go to church reg-  
ularly and read your Bible daily.
